Transitioning to a solar-powered wastewater treatment facility can prepare utilities to address three significant challenges they face ...

This system doesn't just treat wastewater--it works seamlessly with BOKAWATER's commercial RO water purifiers and water treatment chemicals, creating a closed-loop water treatment ...

Floating photovoltaic power plants can be installed on any type of water body, including water treatment reservoirs. Our projects are built using certified floating technologies compatible with ...

Whether you need solutions for a small town or a large industrial plant, Fluence's NIROBOX(TM) has flexible, containerized options for desalination, water, and wastewater treatment.

LZY Mobile Solar Container System - The rapid-deployment solar solution with 20-200kWp foldable PV panels and 100-500kWh battery storage. Set up in under 3 hours for off-grid ...

After several years of research and testing we have achieved a compact solar water purification plant design in a container that can supply up to 1000 m3/day of drinking water.

OkSolar Transforms Shipping Containers into a Solar-Powered Modular units of Power AnyWhere Any Time(R). Our Kits are custom made based on 3D ...

Lenntech designs ready-to-use containerized desalination plants that can produce up to 1000 m3/day of drinking water from different sources and with varying salinities.

Encapsulated in a shipping container, the plant integrates solar power, advanced water treatment, and
