-----

The captive power plant is located at Mombasa Cement's Vipingo facility and is one of the largest privately-developed industrial solar projects in East Africa, according to Equator ...

To date, it has delivered 53MW of solar across Kenya, Uganda and Zimbabwe, with a pipeline of 100MW and ambitions to reach 300MW by 2030. The project also created around ...

Commissioning of one of Kenya's largest C& I PV plants to date is a sign of continued momentum in the sector, and adds to significant wind capacity already installed at ...

Smart integration features now allow multiple containers to operate as coordinated virtual power plants, increasing revenue potential by 25% through peak shaving and grid services.

An off-grid power system that delivers power to converted container buildings and container-based renewable energy systems designed to supply power to other buildings.

The project involves finance and turn-key EPC of a 1MW grid-tie a rooftop solar power plant to power a factory, residential properties and other facilities.

To date, the company has delivered 53 MW of solar capacity across Kenya, Uganda, and Zimbabwe, with a 100 MW development pipeline. It aims to reach 300 MW of operational and ...

Commissioning of one of Kenya's largest C& I PV plants to date is a sign of continued momentum in the sector, and adds to ...

With a 10-MW landmark now live at one of Kenya's industrial heavyweights, Equator Energy has shown how
