With 15+ years in renewable energy integration, we specialize in turnkey storage solutions for utility-scale projects. Our GCC portfolio includes 23 operational ESS installations totaling ...

Our intelligent containerised waste water treatment plants offer a fast and effective above ground portable waste water treatment system solution for any sites, without the need for any existing ...

The Muharraq project is a 100,000 m³/day state-of-the-art wastewater treatment plant with a sewer conveyance system in the Muharraq catchment area, in Bahrain.

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of ...

Designed to endure the most extreme environments, and provide robust power and energy storage for off-grid, grid-support, battery back up and renewable energy applications.

This state-of-the-art IWTP treats 4,400 US gallons per minute (USGPM) of Wastewater and is based on advanced Membrane Bioreactor (MBR) technology, which ...

Feature highlights: This 220V Portable Mobile Digital Power Supply is designed for outdoor emergency energy storage, featuring a lithium battery with a capacity range of 252WH-756WH ...

This is in addition to implementation of the Blue Water project for overload treatment, and the sewage treatment plant and deep pipeline project, which aims to relieve ...
