Jurchen Technology and Blue Circle Energy have agreed to build a 60 MW portfolio of solar projects across 11 parishes in Barbados. The project consists of ground ...

The electricity delivered will come from a 50 MWp Solar photovoltaic plant combined with an energy storage system using hydrogen technologies for long term storage and a li-ion ...

Barbados has marked a major milestone in its push for sustainable energy with the launch of its first utility-scale solar plant. ...

Barbados has marked a major milestone in its push for sustainable energy with the launch of its first utility-scale solar plant. Lucy, the 10MW facility underscores ...

The project, spanning 50 sites across the island-state, is a significant step towards achieving the goal of powering Barbados with 100% renewables ...

The portfolio will include battery energy storage systems (BESS) either tethered to Barbados' primary grid or spread across the ...

Renewstable(R) (Barbados) Inc. (the "Client" or the "Company") is proposing to construct and operate a baseload hybrid solar photovoltaic ("PV") energy facility with hydrogen storage (the ...

Due to the intermittent nature of solar and wind power, this 100% renewable energy vision can only be achieved with renewable baseload powerplants such as RSB. Located at Harrow ...

Within the scenarios, the electrification of private passenger vehicles and cruise ships through shore-to-ship
