While neighboring islands suffered blackouts, Basseterre's CAES system provided 54 hours of continuous power using pre-stored air. The underground vaults remained intact despite 130 ...

The newly announced Basseterre compressed air energy storage tender isn't just another infrastructure project--it's potentially the key to unlocking 24/7 clean energy for 50,000 residents.

A Caribbean island nation turning sunshine and sea breezes into 24/7 electricity. That's the story unfolding in Basseterre, where the energy storage industry is rewriting the ...

Hawaii's Kauai project and Basseterre are like energy storage twins separated at birth. Both combine solar+storage but with different DNA - Basseterre uses more thermal ...

Now imagine flipping that script entirely. Enter the Basseterre lithium battery energy storage system - St. Kitts and Nevis" game-changing solution that's turning heads from Bermuda to ...

The EU's European Investment Bank has pledged support for a long-duration thermal energy storage project and a gravity-based energy storage demonstration project.

The project, set on government-provided land in the Basseterre Valley, will include a 35.6 MW solar energy plant along with a 44.2 MWh battery storage facility.

Basseterre's revised subsidy framework presents timely opportunities in energy storage deployment. With proper planning and local expertise, developers can leverage these ...

The pilot project's 20MW/48MWh lithium-ion battery system - about the size of three tennis courts - isn't just
