Achieves >95% round-trip efficiency (RTE) and 12,000+ cycles, ideal for renewable energy storage and shared grid applications. Enables 5MWh capacity in a 20-foot container, reducing ...

China's 2MW mobile battery truck represents a significant step forward in mobile energy storage technology. This innovative solution has the potential to transform disaster ...

Energy storage has entered the preliminary commercialization stage from the demonstration project stage in China. Therefore, to realize the large-scale commercialization ...

China-based Sunwoda Electronic Company Limited (Sunwoda) has unveiled an extensive mobile battery system. Called the MESS 2000, this massive battery-carrying truck ...

The launch, which took place at the 13th Energy Storage International Summit & Exhibition (ESIE2025), marks a significant step in transitioning mobile storage from an ...

This collaboration demonstrates how cutting-edge clean-energy technologies can boost efficiency, cut emissions, and open the door to new business models across traditional ...

Energy storage system is equipped with energy management system, interacts with fire-fighting, air conditioning, access control, and video monitor to obtain safer operation.

April 11, 2025 | Beijing -- Chinese energy technology company Sunwoda has introduced the world's first 10-meter-class, 2MWh liquid-cooled mobile energy storage vehicle at ESIE 2025.

The launch, which took place at the 13th Energy Storage International Summit & Exhibition (ESIE2025),
