-----

GridStor, a leader in utility-scale battery energy storage systems, has announced the acquisition of a 200 MW / 800 MWh battery storage project in Oklahoma from Black ...

According to a recent study by Aurora Energy Research, deployment of batteries in SPP could save the system operator billions in the years to come - which translates directly to lower costs...

PORTLAND, Ore. - January 16, 2025 - GridStor, a developer and operator of utility-scale battery energy storage systems, announced today that it ...

The document outlines the various advanced energy storage technologies employed by Black Mountain Energy and the numerous benefits they present, such as ...

According to a recent study by Aurora Energy Research, deployment of batteries in SPP could save the system operator billions in the years to ...

Equinor-owned energy storage developer East Point Energy has acquired a 1 00MW/200MWh battery energy storage system (BESS) from Black Mountain Energy Storage (BMES) in ...

Leveraging cumulative decades of electric market experience, Black Mountain Energy Storage develops powerful, flexible, and strategically placed battery energy storage projects to foster a ...

Black Mountain's plant will be a standalone facility, meaning it will not be tied to a specific wind or solar farm. It will store energy from anywhere on the grid and release it during ...
