Hithium has launched a 55 megawatt hours (MWh) battery energy storage system (BESS) project in Razlog, southwestern Bulgaria. ...

Bulgarian renewables developer Sunterra RE has commissioned a 47 MW / 94 MWh battery energy storage system (BESS) ...

Bulgaria-based International Power Supply (IPS) is opening a factory for battery energy storage systems, using proprietary technology. The Exeron X-BESS is one of only six ...

A battery energy storage system (BESS) described as the largest deployed to date in the European Union (EU) has been commissioned in Bulgaria.

Bulgaria-based International Power Supply (IPS) is opening a factory for battery energy storage systems, using proprietary technology. ...

Hithium has launched a 55 megawatt hours (MWh) battery energy storage system (BESS) project in Razlog, southwestern Bulgaria. The project, the largest in Eastern Europe, ...

The system, situated in Lovech, consists of 111 battery containers with lithium iron phosphate gadgets. It was developed by Advance Inexperienced Power AD, an organization ...

This rapid completion encompassed not only the delivery and installation of the advanced lithium-iron-phosphate batteries, but also the integration of state-of-the-art inverters, ...

Bulgaria is now home to the largest electricity storage facility in the European Union. With an installed

capacity of 124 MW and a capacity of 496 MWh, the battery built by ...

Built by Bulgarian renewable energy system and microgrid controls company International Power Systems (IPS), all components of the BESS units, except the lithium iron ...

International Power Supply (IPS) has officially opened its new battery energy storage system (BESS) manufacturing facility near Sofia, Bulgaria - a site recognized by the ...

In this project, GSL ENERGY adopted an advanced lithium-iron-phosphate (LiFePO₄) high-voltage energy storage battery solution, which is used in conjunction with a ...
