-----

Around 120 people work at the factory in Figeholm, all of whom will participate in training on the new solution. The plant is set to be completed in the summer of 2026.

Nuclear PowerHydropowerThe Power ReserveOpen-cycle Gas TurbinesHydrogenKarlshamnsverket is an oil-fired peak and reserve power plant. It's situated in southern Sweden, which requires more capacity than other parts of the country. Karlshamnsverket is the production portion of the power reserve, which is procured by Svenska kraftnat for the winter period. The power plant can also deliver other ancillary services that co...See more on uniper.energydatabase.earth
