11.5" long, 3 element M103 base station antenna can be mounted either vertically or horizontally for best base-to-mobile or base-to-base ...

The Octo is the perfect container for large public spaces both indoor and outdoor with an edgy, yet practical and durable design. Available in a top-loading lid for indoor use and a side-load ...

We do not ship base antennas outside the continental United States. We can do nothing about the high cost of shipping on these antennas.

In the classic directional Yagi design, the 11.5" long, 3 element M103 base station antenna can be mounted either vertically or horizontally for best ...

Browse Tessco's industry-leading selection of outdoor base station yagi antennas & accessories. View multiple element count directional models & arrays.

11.5" long, 3 element M103 base station antenna can be mounted either vertically or horizontally for best base-to-mobile or base-to-base communications. The M103 features a Maco 2kW ...

I put it ahead of the Sirio 3 element for performance. They claim the Sirio works only horizontal where you can run the Maco horizontal or vertical and I have ran mine both ways with good ...

This version is similar to their original design but is a three element beam antenna instead of two. This design gives you the performance you'd expect out the larger Maco antennas, but in a a ...

With the Three-Stream Square, you can create custom recycling stations either as corner and island recycling stations or as standalone recycling stations. For ease of servicing, each ...
