Will Delhi be equipped with 'South Asia's largest battery energy storage system?

Power Minister Ashish Sood on Wednesday announced that Delhi is set to be equipped with "South Asia's largest" utility-scale standalone Battery Energy Storage System (BESS).

Where is India's largest battery energy storage system located?

New Delhi: Delhi Power Minister Ashish Sood inaugurated India's first commercially approved and South Asia's largest 20 MW/40 MWh standalone utility-scale Battery Energy Storage System (BESS) at the 33 kV Kilokari sub-station in New Delhi. The system has been developed by BSES Rajdhani Power Limited in collaboration with IndiGrid, GEAPP, and TERI.

Will India's first standalone battery energy storage system ensure uninterrupted electricity?

In a major step towards ensuring uninterrupted electricity in the national capital, Delhi Energy Minister Ashish Sood on Wednesday inspected the progress of India's first commercially-approved standalone battery energy storage system (BESS) in Kilokri, South Delhi.

Why is Delhi launching a solar energy project?

Sood added that the Delhi government is committed to investing in advanced energy technologies and will offer support to entrepreneurs working in the solar energy sector. "This project not only contributes to clean energy storage but also marks the beginning of a new era of innovation in power management," he said.
