To foster the development of energy storage, the Dominican Republic has established a supportive regulatory framework for this ...

The Superintendency of Electricity (SIE) has approved Resolution SIE-092-2025-LCE, establishing the technical and regulatory basis for a tender for up to 600 MW of new ...

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS). [pdf]

e battery systems in the Dominican Republic. Located on sites in the Santo Domingo region, each of the two systems supplied b clude at least 50% battery storage capacity.

The project aims to provide technical assistance to the MEM to enhance the integration of energy storage systems into renewable energy applications in rural electrifications, particularly solar ...

A notable achievement is the upcoming launch of the first four-hour energy storage system linked to a solar project, set to be operational by mid-2025. This system will participate ...

The Dominican Republic's national energy commission (CNE) has signed a definitive concession for the project called Photovoltaic Installation Santa Clara Energy Group, which aims to install ...

This article explores cutting-edge solar energy storage technologies tailored for the Dominican market, their economic benefits, and real-world success stories.

EcoDirect designs and supplies solar + battery projects in the Dominican Republic. Our team has the tools and
