The Dushanbe-2 Power Plant (Tajik: ???-2 ?. ???????) is a coal-fired power station in Dushanbe, Tajikistan.

The construction of the first stage of the Dushanbe-2 CHPP (2 x 50 MW) began in November 2012 after signing of an interstate agreement between Tajikistan and China.

With hydropower supplying 95% of Tajikistan's electricity (World Bank, 2023), seasonal water fluctuations create energy gaps that innovative storage solutions aim to fill. Let's explore how ...

Dushanbe's energy storage projects showcase how strategic investments can address both immediate power
