Engineered for earthquake resistance, our racks provide stability and safety in seismic-prone environments.

We provide walk-in/non-walk-in energy storage containers, liquid cooling cabinets, marine energy storage containers and various non-standard energy storage products. Meet the requirements ...

Modern seismic-resistant energy storage faces a fundamental engineering dilemma: Batteries require rigid mounting for thermal management yet need flexibility to ...

Imagine needing energy in a remote area--these containers can be swiftly transported and set up in no time. No more waiting for extensive infrastructure projects; just ...

Discover TLS advanced Battery Energy Storage System (BESS) containers, designed to support renewable energy integration, stabilize power grids, and reduce energy costs.

The Pellegrino Seismic Base Isolation System. The Pellegrino Seismic Base Isolation System dissipates up to 85% of the seismic energy that can be exerted on a pallet rack storage ...

Our storage systems feature seismic-resistant, moment-resisting reinforcements, offering the strength and flexibility to evenly distribute seismic forces and absorb energy without collapsing.

Reduced energy costs in areas with big peak-to-valley price differences or negative prices. Solar, storage and diesel generator combined microgrid used in areas without electricity.

Container-type energy base station: It is a large-scale outdoor base station, which is used in scenarios such as

communication base stations, smart cities, transportation, power systems ...

With our expertise, advanced engineering capabilities, and commitment to safety and structural integrity, we deliver custom seismic-resistant storage tanks that meet the unique requirements ...

We provide walk-in/non-walk-in energy storage containers, liquid cooling cabinets, marine energy storage containers and various non-standard energy storage products. Meet ...
