-----  
Will battery energy storage reshape Asia?

Southeast Asia is shifting from the sidelines of battery storage to the centre of a global energy transition. It is on the brink of a battery energy storage (BESS) leap that could reshape its energy systems. The region's market is valued at around USD3.5 billion in 2024 and is projected to approach USD5 billion by 2030, expanding at 6% CAGR.

What is Qianyuan Smart Storage 20mwh?

The Qianyuan Smart Storage 20MWh system marked its first external exhibition debut at SNEC 2025, where a product launch event and certification ceremony were held. Adopting a modular integration design, the system achieves a single-container capacity of 20MWh and a design lifespan of 25 years, leading the global industry.

Is Southeast Asia entering a decisive phase in its energy transition?

Southeast Asia is entering a decisive phase in its energy transition, with BESS shifting from a supporting role in renewable integration to a core enabler of economic and industrial strategy.

Can flexible financing unlock the BTM market in Southeast Asia?

In Southeast Asia, flexible financing will be a critical growth lever for unlocking the large but under-served BTM market in countries like Thailand, Vietnam, and the Philippines. In many Southeast Asian cities, land and space constraints limit the feasibility of large, traditional battery installations.

The Philippines is running multi-gigawatt solar-plus-storage auctions, Vietnam is turning to storage to curb solar curtailment, and Thailand is deploying industrial storage to cut ...

Today, Gotion officially launched a new 20MWh single-cabinet battery energy storage system on its official channels.

Four original case studies of solar power inverter systems with lithium batteries deployed in Southeast Asia--design choices, performance insights, and how storage cuts ...

Vietnam's Mekong Delta now uses floating storage containers that double as fish breeding habitats - talk about multitasking! Meanwhile, Singapore's Jurong Island Microgrid ...

LS Electric will deploy a 20MW/90MWh battery energy storage system (BESS) in Japan after it was awarded the contract through a competitive solicitation process.

For businesses, this surge presents both opportunities and challenges - navigating the diverse regulatory landscapes and leveraging the right procurement strategies are crucial ...

Gotion High-tech showcased multiple energy storage products, with its newly released Qianyuan Smart Storage 20MWh battery energy storage system making its first ...

The combination of the shift to renewable energy and the lack of grid stability in several Southeast Asian nations indicates the need for storage technologies, a need which is ...

The Philippines is running multi-gigawatt solar-plus-storage auctions, Vietnam is turning to storage to curb solar curtailment, and ...

Four original case studies of solar power inverter systems with lithium batteries deployed in Southeast Asia--design choices, ...

Opportunities still exist for investors in Southeast Asia, particularly in the co-location of renewables projects with energy storage and Singapore's ongoing procurement of low-carbon ...

In addition to bid information, we offer in-depth Energy Storage market research, procurement analysis, historical archives, bid consultancy services, and insights into top ...
