Is Tokyo Gas an offtaker?

Tokyo Gas is the only known company in Japan to have signed tolling agreements as an offtaker. Tokyo Gas signed 20-year tolling agreements for two grid-scale BESS projects with a combined power capacity of 80MW, bringing its total to 110MW across three sites, the company announced on June 30, 2025.

Is Tokyo Gas a tolling offtaker?

To date, Tokyo Gas is the only known company in Japan to have signed tolling agreements as an offtaker. The scheme's role in large-scale BESS project bankability in Japan is likely to grow with the recent exclusion of sub-six-hour storage assets from the government's long-term decarbonization auction.

Which companies are launching energy storage projects in Israel?

Chinese supplier HiTHIUM enters the Israeli market with a strategic agreement to deploy 1.5GWh of long-duration energy storage alongside El-Mor Renewable Energy. Eku Energy announces its first energy storage project in Japan with a 30MW/120MWh battery in Miyazaki, backed by a 20-year agreement with Tokyo Gas.

Is Japan a good place to invest in battery storage?

Kentaro Ono, Managing Director of Eku Energy Japan, adds that the Japanese government is creating favorable environments for the development of battery storage. "Opportunities to achieve decarbonization, stable energy supply and economic growth are increasing," he asserts.
