The U.S. Department of Energy Solar Energy Technologies Office (SETO) has developed online resources to help those who want to go solar or who work with solar energy.

We address the challenge of global transaction risk through structured strategies that foster cross-border growth. Complete the form to unlock streamlined funding aligned with your commercial ...

Modular PV containers offer plug-and-play solutions for factories, mines, or remote communities needing rapid electrification without grid dependencies. Mining corporations in Chile's ...

The U.S. Department of Energy (DOE) Solar Energy Technologies Office (SETO) supports funding opportunities across its research areas.

We collect data from a variety of sources that have exposure to different renewable and conventional energy technology financings, both in the United States and abroad.

The US Department of Energy (DOE) has unveiled a funding opportunity worth up to US\$20 million as part of its 2024 Photovoltaics Research and Development initiative.

PV containers offer a modular, portable, and cost-effective solution for renewable energy projects, providing rapid deployment, scalability, and significant financial benefits, ...

View the Solar Energy Technologies Office (SETO) solar energy funding programs past and present, including funding amounts and year announced.

Advances in PV technologies will help achieve the Biden-Harris Administration's goal of a decarbonized
