Romanian entrepreneurs with land access, technical knowledge, or international partnerships are ideally positioned in photovoltaic development. The combination of local ...

Neomar Consulting carried out, between April-May 2024, the 3rd edition of its market study in the field of photovoltaic systems and solar electricity in Romania.

In January 2024, the Romanian Ministry of Energy has put on public consultation two call for projects on support for investment in new ...

Romania's shift to renewables focuses on solar panels, aiming for energy independence, reduced emissions, and sustainable development.

This project is located in Romania, providing local customers with an integrated, movable solar-storage power solution. The system consists of 4 sets of 10-foot 46KW folding photovoltaic ...

Explore a comprehensive guide on agrivoltaics and floating photovoltaics in Romania. Discover regulations, projects, and opportunities.

This project is located in Romania and provides local customers with an integrated, mobile photovoltaic-storage power solution. The system consists of four 10-foot 46KW foldable ...

Romania's revised NECP draft outlines modest growth targets for solar power capacity but this below the country's solar potential and lacks specificity and concrete measures for achievement.
