-----

Driverless container transporters operating in the port of Hamburg, Germany, at the HHLA Container Terminal Altenwerder, are being run on lithium-ion batteries instead of diesel.

At SCS Logistics, we recently managed the transport of a lithium battery container to an industrial site in Germany. The shipment originated in the Netherlands and was delivered safely and...

From residential rooftops to industrial-scale implementations, lithium battery technology is reshaping Hamburg's energy landscape. As photovoltaic installations grow 12% annually in ...

Made in Germany, in Europe's first ever gigafactory for stationary battery storage systems, in Lutherstadt Wittenberg. Quality, performance, and optimum interplay between the individual ...

During an extensive multi-week testing phase, the onboard battery demonstrated its capability, delivering 8 to 10 hours of performance on a single charge under demanding ...

Die Container von Braun eignen sich sowohl als Energiespeichercontainer für klassische Lithium-Ionen-Batterien als auch für innovative Systeme wie Natrium-Schwefel-Batterien.

These batteries are not only maintenance-free and durable but also more environmentally friendly than conventional lithium-ion ...

These batteries are not only maintenance-free and durable but also more environmentally friendly than conventional lithium-ion alternatives, as they do not contain toxic ...

Currently, most large battery systems (Battery Energy Storage Systems, or BESS) are powered by lithium-ion
