---

The 5MW Floating Solar plant is also part of the successful implementation of the Bui Hydro-Solar Hybrid (HSH) system, a significant milestone for ...

GHANA has officially commissioned West Africa's largest floating solar power plant, a major milestone in the country's transition toward renewable ...

The pioneering 5-megawatt floating solar installation is situated on the Black Volta River and was engineered by Ghanaian engineers ...

Ghana has commissioned West Africa's largest floating solar power plant on the Black Volta River. With an estimated cost of \$12 million, the project maximizes space usage, ...

Ghana launches West Africa's largest floating solar project! A 5 MW floating solar installation on the Black Volta River -- engineered by Ghanaian experts at Bui Power ...

The Bui Power Authority (BPA) has completed the construction of a 5MW floating solar photovoltaic (FSPV) power plant on the Bui reservoir. The FSPV system is the first of its ...

The Bui Power Authority (BPA) has completed the construction of a 5MW floating solar photovoltaic (FSPV) power plant on the Bui ...

GHANA has officially commissioned West Africa's largest floating solar power plant, a major milestone in the country's transition toward renewable energy and environmental ...

The 5 MW floating solar farm, now officially the largest in West Africa, is a marvel of innovation. Installed on the surface of the Black Volta River, the project demonstrates how ...

Updated October 2, 2025 - Ghana's Black Volta Solar Project is a pioneering renewable energy initiative, featuring what has been commissioned as West Africa's largest ...

Ghana has launched 5 megawatts of West Africa's largest floating solar photovoltaic plant to date. Bui Power Authority (BPA) completed the project on the Bui ...

The pioneering 5-megawatt floating solar installation is situated on the Black Volta River and was engineered by Ghanaian engineers from the Bui Power Authority (BPA). This ...
