-----

The solar field will supply 20% of Ardagh's expected energy use. In collaboration with Longroad, project partners supporting the solar facility include First Solar, Valta Energy, ...

Ardagh Glass Packaging (AGP) - North America has completed the construction of its solar facility in California, USA. The nearly 13 ...

Ardagh Glass Packaging (AGP) - North America has completed the construction of its solar facility in California, USA. The nearly 13-Megawatt DC solar field will soon supply ...

The electricity generated by the whole Ashalim solar complex is enough to supply 120,000 homes with clean energy. The complex will avoid 110,000 tons of CO2 emissions each year over the ...

The company builds, owns, and operates large-scale solar steam facilities to reduce carbon emissions in hard-to-decarbonize industries such as mining and metals, ...

A Japanese chemical manufacturer and construction company have jointly developed "photovoltaic power generation glass" that can be installed on the external walls and windows ...

As a part of the agreement, AIS will invest in the solar power plant, which would supply renewable energy for the generation of Green Hydrogen, which would be consumed in ...

Soto Solar España, an independent power producer in Spain is developing the largest solar power station in Spain with an installed capacity of 1GW. The storage facility will have a ...

The joint research project successfully produced and tested prototype solar panels, called "mini modules,"
