What is a containerized mobile substation?

Containerized mobile substations are sheltered and address applications in challenging environmental conditions including areas with high pollution, high humidity, extreme temperatures or sand storms. Containers are easy to transport and fast to install, by reducing foundation works as well as installation and commissioning effort on site.

Can containerhouse modify ISO shipping containers?

Containerhouse can modify ISO shipping containers (shorten, widen, even heighten) for MCCs and other electrical equipment at a fraction of the cost of traditional buildings. This container is more than tall enough, but even high-cube containers (9'6" O.D.) are sufficient for standard electrical cabinets.

What types of electrical distribution enclosures do Oldcastle infrastructure manufacture?

Oldcastle Infrastructure manufacturers two styles of fiberglass electrical distribution enclosures for utilities: compression molded and spray-up. While compression molded products are an industry standard, spray-up products offer an alternative to larger or customized parts Product Line Offerings.

Can containerhouse supply electrical only?

Containerhouse can supply with house electrical only, or even install and wire customer-supplied equipment. This is a custom built 20ft container, equipped with an exterior mounted 1 ton AC unit to keep both equipment and personnel cool.

Complete turn-key solution! All-in-one cabinet, ground sleeve, and junction. Provides a safe and convenient primary cable terminating, sectionalizing, tapping, and switching point for ...

Easy-to-install fiberglass foundations for sectionalizing cabinets, primary switchgear, metering pedestals and other utility-grade equipment. Our spray-up/lay-up manufacturing process ...

This is a custom built 20ft container, equipped with an exterior mounted 1 ton AC unit to keep both equipment and personnel cool. It also has lighting & receptacles, aluminum cable ladder trays, ...

Easy-to-install fiberglass foundations for sectionalizing cabinets, primary switchgear, metering pedestals and other utility-grade equipment. Our ...

These factory-assembled and -tested solutions are ideally suited for permanent or semi-permanent usages. These include grid integration of ...
