Highjoule successfully deploys 1MW off-grid photovoltaic storage system in Guinea using innovative solar folding containers, providing sustainable energy for remote mining operations.

Rio Tinto invested GBP300 million in Highview Power's energy storage project in Manchester, partnering with the UK Infrastructure Bank and Goldman Sachs to enhance long ...

This project plays a crucial role in Guinea's transition towards a more sustainable energy future. By leveraging advanced lithium battery ...

Two towns in Guinea, a country in West Africa which grapples with issues of energy security, are reaping the benefits of newly installed ...

Two towns in Guinea, a country in West Africa which grapples with issues of energy security, are reaping the benefits of newly installed solar PV (photovoltaic) mini-grids ...

What is the biggest energy investment in Guinea? The largest energy sector investment in Guinea is the 450MW Souapiti dam project (valued at USD 2.1 billion), begun in late 2015 with ...

The recent fire that burnt the EDG warehouse and destroyed 96,362 out of the 100,000 meters procured under the project has compromised the PDO. As a result of this fire, about 578,000 ...

This project brings together BPP Renewables (UK) and Pacific Sterling Limited (Papa New Guinea) to identify the most appropriate energy storage mechanism for rural communities.

Guinea's capital, Conakry, is making headlines with its national energy storage initiative - a 450 MW/900 MWh lithium-ion battery system set to transform West Africa's power landscape. But ...

This project plays a crucial role in Guinea's transition towards a more sustainable energy future. By leveraging advanced lithium battery technology, it enhances energy security ...

Two towns in Guinea, a country in West Africa which grapples with issues of energy security, are reaping the benefits of newly installed solar PV (photovoltaic) mini-grids backed with battery ...

As multi-functional power plants, pumped storage facilities have a high potential to meet this challenge, because their technology is based on the only long-term, technically proven and ...
