On September 8, 2024, the GSL ENERGY 60kwh wall-mounted battery home energy storage system was successfully deployed in Guatemala, bringing new changes to the local household ...

The rack-type energy storage system supports user-side energy response scheduling and remote duty operation and maintenance, supports parallel/off-grid operation, and can be widely used ...

Whether you're reading this from Tegucigalpa or Toronto, energy storage affects us all. The Honduras energy storage power station project shows how mid-sized nations can ...

In November 2024, Honduras made waves with its 75MW/300MWh battery storage tender - the energy equivalent of building a 4-hour power bank for 75,000 Honduran households [1].

This project, selected through an international tender with six proposals, will be the largest energy storage system in Central America once operational by the end of 2025.

A contract worth \$50.2 million has been awarded to the Chinese-Honduran consortium Windeny-Equina for the construction of a 75 MWh energy storage system.

Honduras announces a tender for the installation of an energy storage system with batteries (BESS) at the Amarateca substation, ...

The National Electric Power Company (ENEE) has selected a Chinese-Honduran consortium to design, supply, install, test, and commission a grid-connected battery energy ...

Next-generation battery management systems maintain optimal operating conditions with 45% less energy
