How much does a solar roof cost?

"Tesla's Solar Roof is possibly the sleekest solar solution out there," CNET's AJ Dellinger wrote. The price of more common solar panels can vary due to a variety of factors. CNET estimates it at between \$15,000 and \$20,000 for a 5-kilowatt system. That's on the low end of MarketWatch's 6-to-8-kilowatt estimate for what the average home needs.

How much does a solar panel installation cost?

"Generally in the United States, the average cost of solar panel installation will be between \$15,000 and \$30,000," explains Krystal Persaud, cofounder of Wildgrid Home, an online home electrification education platform designed to assist homeowners in transitioning away from fossil fuels. Of course, this number represents a large range.

How much does a solar panel cost per watt?

This compares with low cost solar cell panels that are priced at \$1/watt. PEC cell STH efficiency of 10% was used for the baseline system.

Discover the average solar panel installation cost, key price factors, and expert tips to help you budget for your solar project.
