-----  
What size folding glass wall units are available?

Solar Innovations &#174; offers a series of standard-sized Folding Glass wall units in both its G2 and G3 frame sizes. These units are designed to fit in multiple rough opening sizes and are available in two-through six-panel configurations. Customers can choose from six painted and two anodized finishes.

What is a frameless glass wall system?

The single glazed system frame may be recessed into the wall giving a modern clean glass to wall break. If you prefer the more traditional look, the standard frame can be installed in the opening visibly framing the glazing. This frameless glass wall system is engineered to meet the technical specifications of Architects and Design professionals.

What size glass can I use?

A: Standard height allowable 10'0" for 1/2" glass. We can go higher with 5/8" or 3/4" glass and/or structural fins. (Anything higher can be engineered accordingly with the assistance of heavier track or seismic header channel and/or thicker glass). Q: What is the maximum glass size available?
