How will the transition of the energy sector impact Tunisia?

The planned transition of the energy sector would also lead to more economic opportunities and private sector-led job creation. The Government of Tunisia (GoT) has embarked on an ambitious path to increase its renewable energy production.

How many solar and wind power projects are in Tunisia?

Solar and wind power projects subject to authorization : Tunisia has granted authorizations for projects with a capacity of 381 MW, including 261 MW of solar PV and 120 MW of wind power. 2 plants with a unit capacity of of Tataouine and Sidi Bouzid.

What is a virtuous cycle of energy production in Tunisia?

A virtuous cycle of green, affordable, and financially viable energy production. I. The Tunisian Energy Landscape Tunisia relies on imported natural gas to meet the majority of its growing electricity needs, even though the country has a vast potential to generate renewable energy.

How much does a wind farm cost in Tunisia?

State Site : A 198 MW ac project has been awarded in Sidi Bouzid (El Khobna). Most competitive tariff : 98.8 millimes of Tunisian dinar/ kWh (~2.9 euro cents/kWh). Tunisia is making a major commitment to wind power. 8 wind farm projects will be developed on developer sites, with individual capacity capped at 75 MW per project.

A consortium of Norway's Scatec and Japan's Aeolus, a unit of Toyota Tsusho, will develop a 100 MW PV plant near Mazouna in Sidi Bouzid Governorate, all equipped with ...

In June 2023, the World Bank approved US\$268.4 million in financing for the Tunisia-Italy interconnector (ELMED) project that will link ...

This tender is from the country of Tunisia in African region. The tender was published by Tunisian Electricity and Gas Company on 22 Dec 2025 for Turnkey implementation of multi-site "BESS" ...

Eckehard Troster and Rabea Sandherr travelled to Tunisia to present the results and findings of the project. The event was held on June, 26 th in Tunis for representatives of the Energy ...

Tunisia's energy storage power generation sector is transforming faster than a desert sunset. With solar irradiation levels hitting 5.3 kWh/m²/day and wind speeds reaching 9 m/s in coastal ...

In June 2023, the World Bank approved US\$268.4 million in financing for the Tunisia-Italy interconnector (ELMED) project that will link energy grids between Tunisia and ...

Scaling Up Energy Storage to Accelerate Renewables Energy storage is fundamental to stockpile renewable energy on a massive scale.

The project promotes strategic, regulatory and technical competences in Tunisia in order to accelerate the energy transition.

ed their renewable energy potential, such as Tunisia. The objective of this report is to look into the potential of Battery Energy Storage System (BESS) development in Tunisia, in line with ...

The ELMED interconnection project, which will link Tunisia to Italy by 2028, will play a key role in stabilizing energy supply, while supporting the energy transition in Tunisia and Europe.

Preliminary studies have confirmed the critical role of storage technologies in supporting Tunisia's ambitious renewable energy targets. The recent launch of the country's ...
