Ireland could host Europe's first large-scale, iron-air project southwest of Buncrana town in Donegal County. The 10 MW facility ...

In June 2022, RWE assumed full operation of the Lisdrumdoagh Energy Storage Facility. With a capacity of 60 megawatts and 34 megawatt hours (MWh), this facility can feed electricity into ...

Ireland could host Europe's first large-scale, iron-air project southwest of Buncrana town in Donegal County. The 10 MW facility proposed by FuturEnergy Ireland will be capable ...

More than 700 megawatt (MW) of battery storage was active at the end of 2023 and another 500 MW has been contracted to connect over the next five years. These storage ...

Brilliant news coming from ESB Networks as we now have 1 GW of Energy Storage connected to Ireland's electricity network! This ...

ESB has today opened its latest major battery plant at its Aghada site in Co Cork which will add 150MW (300MWh) of fast-acting energy storage to help provide grid stability ...

More than 700 megawatt (MW) of battery storage was active at the end of 2023 and another 500 MW has been contracted to connect ...

The 75 MW/150 MWh BESS is aimed at enhancing grid stability and facilitating greater integration of renewable energy into ...

FuturEnergy Ireland, a joint venture between Coillte and ESB, has been granted planning permission to build

Europe's first iron-air ...

Today, ESB Networks has announced that it has 1,000 MW (one Giga Watt) of electricity storage connected to Ireland's network. This figure includes 731.5 MW of battery ...

An example of one of the inaugural projects introducing long duration to Ireland is a 4-hour battery energy storage system (BESS) ...

The 75 MW/150 MWh BESS is aimed at enhancing grid stability and facilitating greater integration of renewable energy into Ireland's power network. The project, with an ...
