Discover Onis Visa BESS, a modular energy storage system ideal for off-grid use, ensuring energy cost optimization and operational continuity.

As more renewable energy sources are integrated into the national grid, BESS will ensure that we meet Italy's climate targets. By 2030, we expect BESS to be indispensable for ...

In the third part of our series on backup power in Europe, we examine the lucrative BESS investment landscape of Italy.

BESS solutions help to ensure reliable and stable power output, and play a crucial role in maintaining the flow of energy in off-grid applications. In general, there are several BESS ...

In those regions with zero plants there are many projects below 10 MW or coupled with PV plant (PV+BESS authorization) which are not managed at Ministry level in terms of authorization ...

The Italian market for BESS is growing rapidly and currently amounts to 2.3 GW but it almost exclusively consists of residential scale systems, associated with small scale ...

With integrated vision and technologically advanced management, we are continuing to invest in the deployment of BESS in Italy, with the goal of actively contributing to ...

The mobile BESS *Dinamico* was created to overcome these limitations. Mounted on a trolley and designed to be portable, immediate, ...

Our BESS acts as a reliable backup or a complementary companion to the PV system, helping smooth out

power fluctuations and reduce diesel consumption, ultimately making off-grid ...

BESS solutions help to ensure reliable and stable power output, and play a crucial role in maintaining the flow of energy in off-grid applications. In ...

The mobile BESS Dinamico was created to overcome these limitations. Mounted on a trolley and designed to be portable, immediate, and flexible, its plug-and-play nature ...

From 20 KWh to 10 MWh capacity, whether connected to high voltage or low voltage, on-grid or off-grid in combination with solar, wind, water, or cogeneration - our broad product portfolio ...
