Wastewater treatment plants feature a modular extension and set-up concept. This allows for maximum flexibility when it comes to designing your wastewater treatment solution.

For small scale commercial wastewater treatment applications, we preinstall all treatment modules (processes) inside a single container. The complete treatment process including ...

These mobile systems are installed inside a seaworthy 20 or 40 ft containers or in combination to form complete systems with advanced water treatment and purification technologies.

Looking for mobile water treatment systems? Veolia has you covered with portable temporary water treatment plants & filtration systems to cover any situation.

These mobile systems are installed inside a seaworthy 20 or 40 ft containers or in combination to form complete systems with advanced water ...

As the pre-assembled containerized wastewater treatment plant is located inside a standard 20 or 40 foot shipping container, it can be relocated and installed with ease at other locations.

Each unit is housed in a durable container, requiring minimal site preparation. A single 20-foot container can process sewage for small communities, work camps, or disaster relief zones.

Our containerised sewage treatment plant (STP) is made for easy setup and relocation. This solution is ideal for remote locations such as mining camps and oil rig sites.

Suitable for both municipal and industrial wastewater, they can handle projects of any size, treating
