---

Dominica already has substantial geothermal, solar and wind power capacities making the island an ideal location for energy generation from these resources. Those looking to invest in ...

The Dominican government has placed emphasis on energy from renewable sources and has implemented the "Techo Solar program" to electrify rural individual homes for 500 families that ...

Establishing a 20-50 MW solar module assembly line in Dominica is a viable and strategic venture. It aligns with powerful regional trends toward energy independence, ...

We offer a range of solar systems specially designed and tested for tropical conditions, from the most compact one able to power a simple phone/laptop/ tablet and a few bulbs, to larger solar ...

Land constraints pose hurdles for large-scale solar, wind turbines, and battery farms, due to Dominica's steep and forested terrain. Public ...

This agreement aims to initiate the Caribbean's first large-scale green hydrogen geothermal development. The project focuses on harnessing Dominica's substantial geothermal resources ...

We offer a range of solar systems specially designed and tested for tropical conditions, from the most compact one able to power a simple ...

Known as the "Nature Island," Dominica has long relied on imported fossil fuels for electricity. With rising energy costs and climate vulnerabilities, the government partnered with EK SOLAR to ...

The mountainous terrain that dominates the landscape east of Roseau presents significant challenges for large-scale solar development. The steep slopes, dense forest cover, ...

Land constraints pose hurdles for large-scale solar, wind turbines, and battery farms, due to Dominica's steep and forested terrain. Public concerns about environmental impacts from ...

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development.

Solar energy expansion forms a critical component of Dominica's renewable energy strategy. The nation's abundant sunshine provides a natural resource ideal for ...
