Which frequency inverters are suitable for control cabinets?

No matter where you are in the world, our drives are your solution. We have developed the NORDAC PRO family of frequency inverters specifically for installation in control cabinets. These inverters are equally suitable for operating synchronous and asynchronous motors and meet all customer requirements thanks to a wide range of custom options.

How much power does a control cabinet inverter have?

Our inverters for control cabinet installation have a power range from 0.33 to 215 HP and can be customized with optional plug-in modules. Variable cooling solutions ensure optimum heat dissipation. Why Control Cabinet Inverters From NORD? High Performance NORD inverters for control cabinet installation provide high precision speed control.

How much power does a Nord control cabinet inverter have?

NORD control cabinet inverters have a power range of up to 215 HP and thanks to their wide range of functionality can be perfectly adapted to many customer applications. NORD Frequency Inverters already meet the requirements of energy efficiency classification IE2 of the new Ecodesign directive (EU) 2019/1781 (valid from 1st of July 2021).

By reducing wear on the worker and energy expenditure when compared to other lifting methods, the use of G-Force enables ergonomic lifting and a safer work environment for your people.

The control cabinet inverter can implement a wide range of industry-specific drive applications. It also has a vector regulation with an overload reserve of 200% making it ...

The control cabinet inverter features vector control with an overload reserve of 200%. This makes it suitable for controlling geared motors in heavy-duty applications or lifting ...

Understanding the intricacies of inverter control cabinets is crucial for anyone involved in electrical engineering or industrial automation. This guide aims to unravel the ...

Magnetek specializes in the development & manufacturing of digital power & motion control systems for material handling, people-moving & mining applications.
