EcoDirect designs and supplies solar + battery projects to the Marshall Islands. Our team has the tools and experience to get your next project designed and delivered.

This project introduces the pure solar energy system, focusing on replacing traditional diesel power generation to meet essential needs such as agriculture, cooling, and lighting, while ...

The project helped Marshall Energy Company to upgrade the existing No. 1 power station, build a roof and reservoir floating photovoltaic power generation system, and provide it with an ...

The global solar storage container market is experiencing explosive growth, with demand increasing by over 200% in the past two years. Pre-fabricated containerized solutions now ...

Summary: Explore how energy storage power stations are transforming the Marshall Islands' renewable energy landscape. Learn about cutting-edge technologies, regional challenges, and ...

The conversion of a coal plant into 560 MW of molten salt-based energy storage has additionally been proposed, and Canadian Solar has won a tender to deploy solar-plus-storage with 1 ...

By offering off-grid solar power, lithium-ion battery packs, and photovoltaic energy solutions, Namkoo is helping businesses thrive in remote locations while reducing reliance on ...

By placing solar panels on existing water reservoirs, MEC is putting otherwise unused surface area to work. The panels do double duty: they generate clean electricity while ...

These Pacific islands, spread across 750,000 square miles of ocean, face an energy paradox: abundant
