In Arno Atoll, MEC will construct new hybrid systems combining solar and diesel power in both Arno and Ine islands. The project will also modernize existing diesel power ...

EcoDirect designs and supplies solar + battery projects to the Marshall Islands. Our team has the tools and experience to get your next project designed and delivered.

The project helped Marshall Energy Company to upgrade the existing No. 1 power station, build a roof and reservoir floating photovoltaic power generation system, and provide it with an ...

The project, constructed under the World Bank's Sustainable Energy Development Project (SEDeP), showcases practical innovation at ...

Under the National Energy Policy and to address the challenges associated with fossil fuel dependence, the Marshall Islands implemented its outer island solar project, setting a target of ...

The government of the Marshall Islands has implemented extensive solar energy projects to electrify homes, workplaces and other facilities. These ...

Palau, Tuvalu, and the Marshall Islands are getting greener with a massive new solar energy installation.

Our solar projects are intended to provide useful services to those in need, especially in remote locations such as the Marshall Islands. We have been providing solar power systems to ...

Grid-connected solar panels adorn the roofs of classroom buildings at Marshall Islands High School as part of a World Bank-funded project to improve Majuro's energy system.

The government of the Marshall Islands has implemented extensive solar energy projects to electrify homes, workplaces and other facilities. These projects have assisted the Marshall ...

The project, constructed under the World Bank's Sustainable Energy Development Project (SEDeP), showcases practical innovation at work. While the technology may be new to ...

Maximise annual solar PV output in Majuro, Marshall Islands, by tilting solar panels 7degrees South. Majuro, Marshall Islands is a pretty good location for year-round solar energy production.
