"to the point" is an idiomatic expression, it means apt, pertinent, relevant. In idioms, the words of the expression do not always make literal sense, but are rather figurative.

When more than one stands alone, it usually takes a singular verb, but it may take a plural verb if the notion of multiplicity predominates: The operating rooms are all in good order. More than ...

Discover the differences between PV glass types: cell density, color options, and thermal performance. Find the best configuration for your project.

What does The more you know mean? Alex: Did you know a flock of crows is known as murder?

What's the difference between these types of adjective usages? For example: This is more of a prerequisite than a necessary quality. This is more a prerequisite than a ...

Although the initial cost of photovoltaic glass can be higher than traditional glass or standard solar panels, the return on investment is justified by energy savings, system ...

Single building installation can avoid 2.2 million miles of CO2 vehicle pollution; 12-times more than solar. When modeled for buildings, engineered to outperform rooftop solar by 50-fold: Apply to ...

PV glass integrates solar cells into its structure, allowing it to capture sunlight and convert it into electricity. By incorporating PV glass into facades, windows, and skylights, ...

Discover the transformative benefits of solar glass technology, where transparency meets energy efficiency. Learn how this innovation reduces energy costs, lowers carbon footprints, and ...

Despite lower PV conversion efficiency, thermochromic PV glass adds value by dynamically reducing solar heat gain and glare, improving building energy efficiency across ...

Learn how this innovative glass technology can save on energy costs, provide superior insulation, and protect from UV rays, all while generating renewable energy.

"More likely than not" logically means with a probability greater than 50%. A probability of 50% would be "as likely as not". But the user of the phrase is not making a ...
