Will Delhi's first standalone battery energy storage system improve power supply?

Delhi's first standalone battery energy storage system will enhance power supply for 100,000 consumers, ensuring reliability during peak demand and outages.

Can you get continuous electricity supply in New Delhi?

NEW DELHI: In the time to come, you may get continuous electricity supply even if there is a technical fault in the power transmission or distribution system or the grid develops a snag.

Is Delhi a new era of affordable green energy?

The Delhi Electricity Regulatory Commission (DERC) has approved a tariff structure 55% lower than earlier standards, making the power sourced from this system more affordable for consumers. "This is the beginning of a new era of accessible and affordable green energy," the minister added.

Will battery energy storage system be useful in congested areas?

"For this very reason, it will be very useful in congested areas," said an official. BSES in Delhi is implementing India's first utility-scale standalone Battery Energy Storage System (BESS) to provide uninterrupted power supply during outages, improve grid stability, and integrate renewable energy.
