---

Tunisia signed agreements to build solar power plants in Sidi Bouzid and Tozeur. These projects form a vital part of the country's strategy to expand renewable energy and cut ...

In October 2024, Tunisia launched a new tender for 200 MW of large-scale solar, with submissions due by Jan. 15, 2025. Tunisia's ...

In October 2024, Tunisia launched a new tender for 200 MW of large-scale solar, with submissions due by Jan. Tunisia's total solar capacity reached 506 MW by the ...

Two new solar photovoltaic (PV) plants are set to be constructed in Tunisia, helping the country reduce its reliance on fossil fuels.

On 16 December 2025, in the central Tunisian governorate of Kairouan, a 120-megawatt solar power plant was officially commissioned, marking the country's largest operational solar ...

Tunisia signed agreements to build solar power plants in Sidi Bouzid and Tozeur. These projects form a vital part of the country's ...

Tunisia is accelerating its energy transition by awarding 4 solar photovoltaic projects totaling 498 MW to reduce import dependency and promote renewable energy.

Tunisia ended 2025 on a high note, commissioning its largest solar power plant yet. The government also approved tenders for 2.35GW new solar and wind projects for 2026.

Tunisia has taken a major step toward cleaner and more secure power after a large solar plant began its operations, a move praised by the African Development Bank ...

The addition of 1.3 GW of solar capacity is set to transform Tunisia's energy sector. It will substantially reduce the country's dependence on imported fossil fuels, which currently ...

Anglo-Tunisian group SoleCrypt announced plans for a 60 MW PV plant in Tozeur, part of a broader initiative to connect eventually to the Medusa submarine cable, enhancing ...

Tunisia has signed contracts for four solar photovoltaic projects totaling 500 MW, marking a significant milestone in its renewable energy ambitions. These projects are part of ...
