Hey there, first off means "first of all" right? For example, "first off, my name's James not Jack..." but my question starts here, what would be the continuation for multiple ...

Wondering what a solar container system costs? Explore real-world price ranges, components, and examples to understand what impacts total cost--and if it's worth the ...

Hello everyone, I learned that the phrasal verb "to cut someone off" can be used meaning "to stop having a close or friendly relationship with someone". My question is: Was ...

Off-grid solar systems typically cost between \$45,000-\$65,000 for a complete home setup, significantly more than grid-tied systems that average \$15,000-\$20,000. Battery ...

In BE, "off work" means not working, possibly because of illness, or because you are on leave or have a holiday. Therefore, in BE, your question would make sense.

It's easier to break down the cost of an off-grid solar system when you stick with a particular power consumption need. So, for the sake of this article, we will use the one ...

Switching to an off-grid solar power system lets you generate your own electricity without being tied to an electric grid--and without ...

It's not too common though. The two most common formulations are: I get off work at 5. and I get off of work at 5. At least where I live, "get off from" is used, but not as ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

Switching to an off-grid solar power system lets you generate your own electricity without being tied to an electric grid--and without energy bills and power outages. This ...

Your choices (get off work, finish work, leave work) will all work fine finishing the question about a normal working day. I don't see much difference in formality, if any.
