Today's Council approval is one of the six steps to get the two power stations running again. It marks a major milestone to move Tshwane closer to energy independence ...

Moya said the plan is to convert the Pretoria West power station to a waste-to-energy plant and to resuscitate the Rooiwal power station.

Rooiwal Power Station is a five-unit coal-fired power plant with a total capacity of 300 MW. The plant was completed between 1962 and 1970, and is owned by Tshwane Electricity Division.

The City of Tshwane has given the green light to begin leasing the city-owned Rooiwal and Pretoria West power stations to independent power producers.

The mysterious history of the Rooiwal Power Station raises questions about a past ANC administration's decision to shut it down. Despite the potential operational lifespan ...

The city shared its plans at the inaugural Tshwane Energy Summit 2024 at the SunBet Arena, Times Square, in Pretoria from June 19 to 20.

The coal-fired power plant, which was built in 1952, has not been operational since 2012 despite costing the metro hundreds of ...

In January 2024, the City of Tshwane Council approved a plan to lease Rooiwal power station and Pretoria West power station to private operators for 40-year leases.

Rooiwal Power Station is a five-unit coal-fired power plant with a total capacity of 300 MW. The plant was completed between 1962 and 1970, ...
