Does the go-E wallbox support bidirectional charging?

With the new go-e wallbox, bidirectional charging is now possible. The go-e Charger PRO is ISO 15118 V2X ready and Plug & Charge ready, meaning it's hardware-compatible for bidirectional charging.

How to use vehicle to load bidirectional charging?

Imagine making your morning cup of delicious cappuccino just by connecting a coffee machine directly to your vehicle when camping. To use Vehicle to Load bidirectional charging, you need a normal Schuko socket in the electric car to which you can connect electrical devices on the go.

How does bidirectional charging work?

When electricity demand is high, EVs can supply electricity to the grid, acting as a distributed energy source. Conversely, during off-peak hours, they can recharge. The goal of bidirectional charging, in this case, is to contribute to grid stability and reduce the need for additional power plants.

Our shipping container homes are crafted with high-quality materials to ensure durability and resistance to the island's unique environmental conditions. With easy ...

Simple Integration: Rocsys understands the complexities of integrating electric vehicles with charging infrastructure. That's why we designed our ...
