Why should you choose Sels solar charging shelters?

Tailored for the great outdoors, this shelter not only blends seamlessly with nature but also ensures a reliable power source for both personal devices and essential equipment, redefining the concept of sustainable and accessible wilderness amenities. SELS Solar charging shelters have a modern and applicable design.

How much solar can a 20 foot container hold?

20 foot containers can expand from 3,000W of solar up to 6,000W. 40 foot containers can expand from 3,000W up to 12,000W of solar in the future. We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount.

How many USB ports does the mountain shelter have?

Boasting three wireless chargers, two USB, and two USB-C ports, it caters to a variety of devices. Additionally, two 120-volt outlets accommodate larger electronics. What sets the Mountain Shelter apart is its industry-first wheelchair charging apparatus, promoting inclusivity on trails and in the wilderness.

Are Sels solar charging shelters ADA compliant?

SELS Solar charging shelters have a modern and applicable design. The commercial-grade, reinforced bench accommodates ADA compliant seating and the canopy houses the built-in solar panels for optimal charging capabilities. Custom color options allow you to choose a color that matches your surrounding areas.

No running wires underground. An advanced battery system provides reliable backup for days, and powers Haven's tasteful LED lighting. Using lithium batteries that recharge quickly and ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.
