European Commission (EC) funding is supporting a project to integrate battery storage at a pumped hydro energy storage (PHES) plant ...

As the sun sets over the High Tatras, one thing's clear: Slovakia's container energy storage cabinets aren't just metal boxes - they're the unsung heroes of the energy transition.

Leclanche's 5.2 MW, 2.9 MWh containerised energy storage system was integrated into the plant's internal medium voltage grid. It is ...

European Commission (EC) funding is supporting a project to integrate battery storage at a pumped hydro energy storage (PHES) plant in Slovakia.

The planned facility in Slovakia will be the first of its kind in Europe, providing gigawatt-hour-scale energy storage capacity. It will store surplus electricity generated by ...

Leclanche's 5.2 MW, 2.9 MWh containerised energy storage system was integrated into the plant's internal medium voltage grid. It is now being used to help the plant ...

The project's Phase 1 alone can store 800 MWh - enough to power 27,000 Slovak households during winter blackouts. That's equivalent to keeping all Bratislava's Christmas lights glowing ...

This BESS is integral to ENGIE's multi-phase project, enhancing grid stability, supporting renewable energy integration, and laying the groundwork for future energy flexibility ...

The Slovakian project will be the first of its kind in Europe, delivering gigawatt-hour-scale energy storage
