---

China's state-owned power generation enterprise Datang Group said on June 30 that it had connected to the grid a 50 MW/100 MWh project in Qianjiang, Hubei Province, making it ...

Peak Energy's sodium-ion phosphate pyrophosphate (NFPP) battery storage system was unveiled in July and is now running at the ...

Industry experts view the Baochi project as a milestone in commercializing sodium-ion battery technology and a valuable testbed for grid-forming storage and multi-energy ...

The first phase of the world's largest sodium-ion battery energy storage system (BESS), in China, has come online.

The 100 MWh project in Qianjiang demonstrates the scalability of sodium-ion technology. The system, built using 185 Ah sodium-ion ...

July 12, 2024: The first phase of China's state-owned Datang Group's new energy storage power station has been connected to the grid in Qianjiang, Hubei Province, making it the world's ...

Armed with government R& D grants and the need to balance renewable energy in the national electricity grid, HiNa Battery has ...

Peak Energy announced the launch and shipment of its sodium-ion battery energy storage system (ESS). The solution delivers a ...

Armed with government R& D grants and the need to balance renewable energy in the national electricity grid, HiNa Battery has unveiled the world's biggest sodium-ion storage ...

The 100 MWh project in Qianjiang demonstrates the scalability of sodium-ion technology. The system, built using 185 Ah sodium-ion batteries from HiNa Battery, comprises ...

July 12, 2024: The first phase of China's state-owned Datang Group's new energy storage power station has been connected to the grid in ...

Peak Energy's sodium-ion phosphate pyrophosphate (NFPP) battery storage system was unveiled in July and is now running at the Solar Technology Acceleration Center ...
