Solar-Plus for Electric Co-ops (SPECs) was launched to help optimize the planning, procurement, and operations of battery storage and solar-plus-storage for electric cooperatives.

GridVest is introduced as an innovative company focused on simplifying battery storage procurement and financing. Alex explains how GridVest bundles sourcing, financing, and ...

On this page, SPECs offers a process framework for solar-plus-storage procurement, as an essential checklist for process steps and considerations. A procurement guidance brief, tuned ...

By focusing on these core battery-centric aspects of your procurement strategy, you can ensure you are not just buying a commodity, but investing in a high-performance asset ...

In August, Xcel Energy introduced a distributed capacity procurement that could add 400 MW to 1,000 MW of both solar and storage in that territory.

This chapter supports procurement of energy storage systems (ESS) and services, primarily through the development of procurement documents such as Requests for Proposal (RFPs), ...

Smart solar procurement goes beyond simply acquiring materials; it's a strategic process that ensures each element of a solar and battery system is carefully selected, ...

Container energy storage systems are inherently modular, making them highly scalable and flexible. A single unit can store a small amount of energy, but these systems can ...

Each of these functions will require a customized procurement. In addition, the parties will need to consider

how the solar and battery are coupled (on either a DC or an AC ...

Checklist provides federal agencies with a standard set of tasks, questions, and reference points to assist in the early stages of battery energy storage systems (BESS) project ...

On this page, SPECs offers a process framework for solar-plus-storage procurement, as an essential checklist for process steps and ...
