---

The Solar Energy Industries Association (SEIA) has released a whitepaper recommending the US deploy 10 million distributed solar installations and reach 700GWh of ...

Many utilities have embraced gas, or promoted restarting closed coal or nuclear plants, but that overlooks the cheapest and fastest-to-build option - solar energy combined ...

It is currently the largest single solar and battery energy storage project to reach this milestone. Site construction commenced in Q1 2021 and reached substantial completion in 2023.

The project's impressive scale was captured by the Landsat-9 satellite on January 12, 2024. The Edwards Sanborn Solar and Energy Storage project is the largest of its kind in the US and the...

Safeway's rooftop solar panels and on-site energy storage bring clean, reliable power closer to demand. It uses The Sun Company's renewable-energy microgrids and ...

Gemini is the largest co-located solar plus battery energy storage system (BESS) project in the US, delivering clean, affordable power to communities in Las Vegas and beyond.

AES just completed the first half of Bellefield, which will become the largest solar + storage facility in the US. The 1,000-megawatt ...

AES just completed the first half of Bellefield, which will become the largest solar + storage facility in the US. The 1,000-megawatt (MW) Bellefield 1 project in Kern County, ...

Safeway's rooftop solar panels and on-site energy storage bring clean, reliable power closer to demand. It uses The Sun Company's ...

The Slate Solar + Storage Project is one of the United States' larger renewable energy facilities - combining a 300 MWac solar power facility with a 140.25 MW/561 MWh ...

Although several options are available for on-site renewable generation, and the best solution can vary from one location to another, this resource focuses on solar photovoltaic (PV) systems as ...

Nevada has become home to the largest solar and battery energy storage system in the United States, marking a significant milestone in the country's clean energy transition.
