One of the US's largest solar + battery storage projects is now fully online in Mojave, California.

Solana uses the first U.S. application of an innovative thermal energy storage system with molten salt as the energy storage media, combined with parabolic trough concentrating solar power ...

In 2024, generators added a record 30 GW of utility-scale solar to the U.S. grid, accounting for 61% of capacity additions last year. We expect this trend will continue in 2025, with 32.5 GW ...

As part of the new airport's build, Daxing has an integrated project within it combining solar power generation with energy storage. This ensures a stable and sustainable ...

As we delve into the details of this energy landscape, we'll explore how solar and battery technologies are reshaping the U.S. power grid and contributing to a more sustainable ...

Terra-Gen and Mortenson have announced the activation of the Edwards & Sanborn Solar + Energy Storage project, the largest solar-plus-storage project in the United ...

The Daggett Solar and Storage project is a solar power generation and storage development in San Bernardino County, California, US. Clean energy company Clearway ...

Local leaders and clean energy experts gathered Tuesday beneath a blazing desert sun to mark the initiation of full production from ...

Many utilities have embraced gas, or promoted restarting closed coal or nuclear plants, but that overlooks the cheapest and fastest-to-build option - solar energy combined ...
