Sudan Electricity Corporation (SSEC) and the Ministry of Energy ...

The Ezra Group, a leading business conglomerate, announced the successful launch of the 20-Megawatt (MW) solar power ...

In March 2020, South Sudan's installed generation capacity was reported as approximately 130 MW. Most of the electricity in the country is concentrated in Juba the capital and in the regional centers of Malakal and Wau. At that time the demand for electricity in the county was estimated at over 300 MW and growing. Nearly all electricity sources in the country are fossil-fuel based, with attendant challenges of cost and environmental pollution. There are plans to build new generati...

South Sudan's energy landscape is transforming rapidly, with the Juba energy storage project ranking highlighting the nation's push toward grid stability. As solar adoption grows by 18% ...
