This report delves into the transformative phase of Sri Lanka's energy sector, highlighting the growing adoption of renewable energy sources like solar and wind power.

With national goals to meet 70% of electricity demand through renewable energy by 2030 and achieve carbon neutrality in power ...

SgurrEnergy has secured a contract to lead Sri Lanka's first 100 MW solar photovoltaic (PV) project integrated with a 12 MWh battery energy storage system (BESS). ...

The Implications and Recommendations section highlights 15 critical issues that need to be addressed in order to advance Sri Lanka's renewable energy, energy storage, and hydrogen ...

SgurrEnergy has secured the contract to develop Sri Lanka's first 100 MW solar photovoltaic project with a 12 MWh battery energy storage system (BESS). It will be ...

ADB said yesterday (25 November) that the US\$200 million loan will fund the Power System Strengthening and Renewable Energy Integration Project, which includes the ...

As Sri Lanka moves steadily toward a cleaner and sustainable energy future, energy storage is an emerging component of this transformation.

Issuing a statement, the CEB said this groundbreaking 600 MW project will store excess renewable energy from solar and wind ...

The Ministry of Power and Energy has received cabinet approval to establish 160 megawatt battery energy storage systems at 16 identified locations nationwide. Ministry ...

Issuing a statement, the CEB said this groundbreaking 600 MW project will store excess renewable energy from solar and wind sources, ensuring grid stability and supporting ...

In conclusion, the Maha Oya "Water Battery" represents a significant step toward a cleaner energy future for Sri Lanka. Balancing the benefits of renewable energy storage with ...

ADB said yesterday (25 November) that the US\$200 million loan will fund the Power System Strengthening and Renewable Energy ...
