A pumped hydro energy storage (PHES) plant with a capacity of 20GWh in Valais, Switzerland, will begin operations on Friday, 1 July.

The utility company Elektrizitatswerke Obwalden (EWO) has investigated the viability of a planned pumped storage power plant between Lake Sarnen and Lake Lungern in ...

A new pumped-storage and turbine plant in Switzerland could give a significant boost to the development of renewable energies in Europe.

Due to various drivers, particularly the Energy Strategy 2050 and the Swiss Waters Protection Act, there will likely be significant changes in the future hydropower generation and storage, ...

Swiss engineers are converting excess summer solar into hydrogen stored in repurposed natural gas caverns. Come winter, this becomes heating fuel - solving the ...

ABB is supplying a complete package of electrical equipment for the new 1,000 MW Limmern pumped storage power plant in Switzerland. Kraftwerke Lint-Limmern (KLL), a member of the ...

We have been using this energy source for over a century with our run-of-river, storage and pumped storage power plants. Our portfolio of hydropower plants is characterised ...

With costs of just over 2 billion Swiss francs, the project will be an important component of the Swiss and European energy strategy. Thanks to the installed capacity of 900 MW, the power ...

Flexbase Group has begun construction on what could become one of Europe's largest flow battery storage
