Where is PV plant located in Tashkent?

The PV plant site is located along the 4R-12 district highway, which links feeder roads within the districts of Yukorichirchik, Parkent and Kibray to the ring road along the outskirts of Tashkent City. The single carriageway is paved and in good condition.

Where is Bess project located in Tashkent?

The PV plant and the BESS facility are situated 3.5 km apart, within Yuqorichirchik District and Parkent District respectively. Both districts are located within Tashkent Region. The overall project location lies about 20 km from Tashkent City.

What is the capacity of solar plant in yuqorichirchik?

The solar (PV) plant sited within Yuqorichirchik District will operate at a capacity of 200 MW, with a total estimated lifetime yield of 11,861,233 MWh. The PV plant components involved in the generation of electricity from solar radiation are described as follows.

What type of road connects Tashkent city to yangiyor?

paved road connecting the district to the main radial and outer ring roads of Tashkent City. Yangiyor-Tashkent gas pipeline, with a length of 201 km, depth of 0.8m to 1.5m below ground level and a diameter 1220mm. An existing OTL intersecting the southern portion of the site and running along the western boundary of the site.

Located approximately 20 kilometers northeast of Tashkent, the capital city, the project comprises a 200 megawatt (MW) solar photovoltaic (PV) plant ...

Supplier of solar panels, inverters, batteries for the needs of enterprises, organizations and the public. Our company also performs measurement, design, installation of ...

Table 2-5 below provides a preliminary overview of equipment that will be used to perform various operation-phase activities and operations within the PV plant, sub-station and BESS facilities, ...
